Resides: Denver, Colorado
b. 1959, Kansas, USA

Brief Respite
River otters
Oil, 20 x 30

River otters just might be the most fun-loving animals on earth. Highly energetic and playful, they don't sit still for long. When not occupied with the necessities of eating and sleeping, they are playing.

In this painting, they are taking a break and relaxing for a few minutes before sliding back into the water.
