

### Greenacres 2021-2022 Field Trip COVID-19 Guidelines

The safety of our staff and visitors has always been a top priority at Greenacres. Please note, these guidelines are subject to change as we continuously monitor CDC and health department recommendations. In order to provide the safest experience for your group, we require these guidelines to be followed:

- Only one classroom is permitted at a Greenacres site at a time, including a maximum of 20 people (total adults and children) for each homeschool group field trip.
- Field trips are 2 hours in length (additional 30 minute lunch option).
- Our programs are designed to be interactive, therefore all individuals in attendance during a field trip will be required to **wear a mask or face covering when indoors**, with the exception of eating and drinking. Acceptable masks include disposable or cloth masks; face shields alone are not acceptable.
- If school protocols exceed Greenacres guidelines, those will be communicated to Greenacres and be honored.
- All guests are required to self-monitor their symptoms and act responsibly prior to entering the Greenacres property. Anyone with a temperature above 100 degrees F is asked not to enter the property.
- Experiences will allow for social distancing. This includes keeping groups small so that students have space to spread out. In order to achieve this, we ask that you provide at least one chaperone for every ten students attending (ex. 15 students- 2 chaperones; 21 students- 3 chaperones)
- Access to soap and water or hand sanitizer will be available at all times.
- Field trips will be held outside and/or in well ventilated, open-air spaces as much as possible. Please dress appropriately for the weather.
- Per Hamilton County Health Department, water fountains with a water crest of 2 inches or higher than the mouth piece will be available for use. Please bring a personal water bottle.
- Anyone who exhibits COVID-19 symptoms or has been in contact with someone who has tested positive for COVID-19 should follow CDC's guidelines for community exposure.
